Amendments to the Specification

Please replace paragraph [0028] with the following amended paragraph:

[0028] Therefore, if the correlation value R_{pre} is greater than the correlation value R_{nxt} , it
5 means that the interference is mainly caused by the previous symbol, in this manner, the
timing of the boundary is delayed by the timing controller [[114a]] 129. If the correlation
value R_{pre} is smaller than the correlation value R_{nxt} , it means that the interference is
mainly caused by the next symbol, in this manner, the timing is advanced by the timing
controller 129. In the end, the ISI effect is alleviated.
